

Return and Rebuild

NCP Fall Campaign for South Sudan

People in South Sudan are finally able to return to their home country after having fled during conflict and insecurity over the past decade. Now they are ready to rebuild their lives but are starting from scratch.

That's where we come in! When we visited last May, our partner Agnes gave us a list of needs:

- tailoring graduates need sewing machines
 - beautician grads need start-up materials
 - women starting goat projects need...goats
 - women want farm and need seeds and tools
 - women's groups need micro loans as capital for starting small businesses
 - the school we built a decade ago is now flooded with returning students and needs everything from scholarships to a new school bus to a clinic on campus to supplemental pay for teachers (currently paid \$50 per month)
- Costs:** \$75 for sewing machines or beautician supplies (cost is split \$75/\$75 with the women); \$70 for a pair of goats; \$25 per month supplement for teachers; \$200 provides a microloan; \$3000 builds latrines at the women's training center

Any gift in any amount helps these women and girls

Return and Rebuild!
