# "Tree is our life"

NCP South Sudan partner Paskwale Ben sent this summary of the reasons he and his team plant tens of thousands of trees every year with the support of our If a Tree *Falls*... fund:

Our community plants trees for
1 source of income
2 construction
3 oxygen
4 rainfall
5 shade
6 medication
7 fuel
8 wind control
9 soil improvement
10 home furnitures
11 bee hives
12 boats
13 animals' food
14 books
15 juice
16. etc

If you also believe trees are critical to our life, support Paskwale and our other partners in Burma, Congo, Malawi, Rwanda and Nepal. <u>As little as 10 cents plants a tree!!</u> We've planted 3 million trees in our first 20 years – and are aiming for 2 million more in the next decade!
